

To the Gold Wings:

O'Berry Center is one of five regional facilities that serve the developmentally disabled population of North Carolina. O'Berry presently serves approximately 291 individuals who reside in group homes on the campus. Each of the group homes serve from eight to sixteen persons ranging in age from 18 to 86. The majority of the individuals are adults and many are medically fragile and experience other disabilities such as hearing, visual, speech, seizures, and ambulation or contracture concerns. No matter what functioning level or disability, everyone loves to receive gifts and to be recognized in a special way. And for the past ten years that the Gold Wings have been coming to O'Berry Center, you have made a difference in the lives of the individuals we serve. Thank you for your love and support.
